OSBORNE

Is Nominated by the President
to Be United States Marshal
in Southern District.

(SPECIAL TO THE TELEGRAM)
WASHINGTON, D. C., Jan. 30.—Late Thursday afternoon the name of William Osborne was sent by President Wilson to the Senate. He is nominated to be United States Marshal for the Southern District of West Virginia. Osborne is a resident of Boone county and of local political prominence. He served as county clerk of that county. It is not expected that there will be any trouble about his confirmation.

Mr. Osborne was endorsed by Senator Chilton. His is regarded as strictly a Chilton appointment. He has been identified with the Chilton-MacCorkle faction for years. It is said, and evidently his service in that organization has been highly valuable; or at least considered so by them.

John Dice, of Greenbrier, was slated for this appointment, but there was a slip in his case, as in the case of Senator G. B. Sizemore, of Sistersville, for the marshal in the Northern district. The latter claims he had the promise of the Watson-Chilton combine for the job. Herbert Saunders, of Bluefield, claims that he had Senator Chilton's promise of the job that has gone to Osborne. Osborne succeeded Marshall Frank Tryon who was appointed by Roosevelt and re-appointed by Taft.

It is considered significant here that the name of Ned Smith, of Fairmont, was not sent to the Senate at the same time Osborne's name was sent in. Smith was endorsed by Chilton for the position of National Chairman William F. McCombs. The latter has twice discussed this appointment with President Wilson, the last time on Tuesday night.

The fight over these two plums has been a bitter one, and has seriously split the Democratic party, if all that Democratic leaders themselves say may be believed. In Smith's case, it appears that the fight is still going on, or at least the president is taking more time in considering it. It is believed, and so asserted today, that President Wilson would much prefer to appoint William Campbell, of Charles Town. It is also asserted that Campbell had a loyal supporter in the person of National Chairman William F. McCombs. The latter has twice discussed this appointment with President Wilson, the last time on Tuesday night.

INSTITUTE

Of Clay District Teachers is to
Be Held Saturday, Feb-
ruary 7.

SHINNSTON, Jan. 30.—The teachers of Clay district will meet Saturday, February 7, at 2 p. m. in their fifth regular monthly institute. This time will be spent in discussing topics based on the reading circle book, "English in the Country Schools." These topics among others will be discussed:

How to teach spelling—Miss Sturm.
How does word study differ from spelling?—Mr. Coffmader.
To what extent should formal grammar be taught in the grades?—Mr. Bumgardner.
How to teach language in the intermediate grades?—Miss Barnes.
How to correlate the language books with the spoken language of the pupil?—Mr. Coffman.
Miss Dessie Coffman will play two numbers on the piano.

Gold Filled Wire.
Since the perfection of gold filled metal the number of spectacle and eyeglass frames and mountings made of this material has shown a very large yearly increase. Considering the importance of gold filled wire and the many uses to which it is put it seems surprising that so little is really known of this and how nearly equal to solid gold it is for many uses. The term gold filled is somewhat misleading. Merely reversing it almost thoroughly explains both the material and the process.

Filled gold, as it might well be called, consists of a gold shell filled with an alloy of base metal. The popularity of gold filled is demonstrated by the fact that nearly \$1,000,000 of this gold is used annually in one plant alone, and half of this is used in the manufacture of the gold filled wire from which spectacles and eyeglass frames and mountings are made.—American Machinist

GRANDMA NEVER LET HER HAIR GET GRAY

Kept Her Locks Dark, Thick,
Glossy, with Sage Tea
and Sulphur.

When you darken your hair with Sage Tea and Sulphur no one can tell because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. —Advertisement.

BOWLING NEWS

Clothiers Win Two.
The Donohue and Johnson team of the City Duck Pin League, won two out of the three games rolled with the Invincibles on the Gore alleys Thursday evening. Clemm, the former star member of the Gondoller team, but who recently resigned from that team, made his appearance with the Donohue and Johnson team last evening and rolled a good game. Lee Johnson, captain of the Donohue and Johnson team, had high score and high average for the contest.

SLATED TO HEAD U. S. TRADES BODY

Joseph E. Davies, of Wisconsin, commissioner of corporations, in all probability will be the first chairman of the interstate trade commission to be created as one of the features of President Wilson's anti-trust program. The great industrial problem which the commission will attempt to solve will be whether the monopolistic system of large units or the competitive system confers the greatest advantage upon society.

BAD PRACTICE

Of Shooting from the Solid in
the Coal Mines is to Be
Broken up.

CHARLESTON, Jan. 30.—That an
effort is being made among coal
operators to break up the habit about
many mines of "shooting from the
solid" has again been demonstrated
in Raleigh county where the E. E.
White Coal Company has declined to
continue in employment any man
found violating the mining law in this
respect, and of endangering the lives
of other miners and the destruction of
property.

Toney Chert, an employee of the E. E.
White Coal Company, was tried and
convicted in Raleigh county last week
of "shooting from the solid." His
fine and costs amounted to \$10.00.
When Chert returned to the mine, to
go to work the general manager is-
sued instructions that the man be not
employed at any of the mines of that
company. Instructions have always
been posted in conspicuous places
about the mines of this company for-
bidding the very thing Chert was con-
victed of doing. By this practice,
which is a violation of the mining law,
many accidents have occurred and
has also resulted in much damage to
property.

Both Governor Hatfield and Chief
Mine Inspector Earl Henry have urged
both the miners and operators to use
their best efforts to decrease the num-
ber of accidents about the mines. By
refusing to employ men who decline to
obey the law and thus place in danger
the lives of fellow-workmen, it is be-
lieved by the operators they will be
able to reduce the number of acci-
dents per month.

"Shooting from the solid" is recog-
nized as one of the greatest, if not
the greatest evil, practiced among
miners. By this means they hope to
property or injury to the person or as
but in most cases either damage to
property or injury to the person or an
innocent person results.

PROMINENT

Physician, Dr. W. M. Dent, Dies
at An Advanced Age
at Newburg.

GRAFTON, Jan. 30.—Dr. William
Marmaduke Dent, one of the oldest
practicing physicians and one of the
most widely known in this part of
the state, is dead at the age of 82. He
had been practicing medicine con-
tinuously for the last sixty years.

The funeral will be held Saturday
morning at 9 o'clock at the residence
at Newburg.
